RE: Proceeding 16-106 - Protecting the Privacy of Customers of Broadband and Other
Telecommunications Services

Dear Chairman Wheeler,

The recent regulations you have imposed and the exemptions that you have allowed provides Google a Free Pass. Frankly this is inexcusable. I hope that you have noticed that the people are rising up to limit the bureaucrats power, and that includes you. You need to know that we are watching and will hold you accountable!!!

You know as well as anyone that Google knows more about us than any company in the world. More about our personal shopping habits; what we watch on the Internet; and how we live your lives.

And now they're even collecting our DNA!

Do not take Americans as fools, Chairman Wheeler. Your so-called privacy rules do nothing to secure our privacy when they give a free pass to the worst privacy violator in history.

And this isn't the first time Obama's friends have been protected. When you passed the largest government takeover of the Internet in history, Google got a free pass from following those rules, too.

Why are you going out of your way to protect Google? Could it be because Google is Obama's biggest corporate patron? Could it be because Google and the federal government work so closely on so many projects?

You've seen the recent news no doubt: Regular meetings at the White House. Hundreds of employees going back and forth between Google and the Obama Administration, including at least 9 between Google and your FCC!

Americans have noticed and we're disgusted.

Sincerely,
Daniel Roeder
